

WE ARE KEIDOS AND WE CELEBRATE OUR FIRST YEAR

Results and achievements of our first year

Transforming the world is not just an important matter:

IT IS WHAT REALLY MATTERS TO US

OUR PURPOSE

We are here to generate positive impact. Our purpose lies in transforming reality with legal tools and boost organisations to bring about threefold positive impact: economic, social and environmental.

Aiming at advancing the transition towards new economies, we offer legal consultancy for sustainable development to multiple market actors while promoting game changing rules for a sustainable world.

Taking on a comprehensive approach to counsel, not only in what is legal, but also what is right.

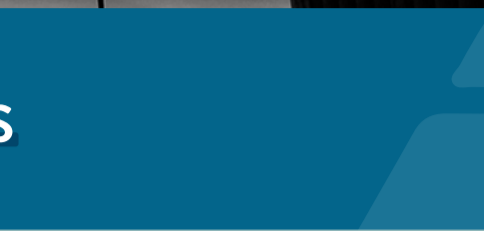

WHAT WE BELIEVE IN

We know that complying with the law is no longer enough to contribute to the 2030 Agenda for Sustainable Development. Today we need to take a step forward: our actions and decisions must trigger a positive impact and create shared value.

We believe in the law as a powerful instrument of change, as an infrastructure facilitator enabling new business and organizational models.

OUR PARTNERS

We work in alliance with:

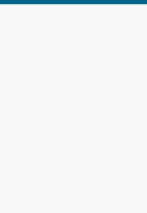

We conform multidisciplinary teams that bring a cross-disciplinary approach to our clients.

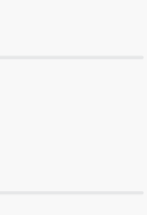

OUR SERVICES

LEGAL CONSULTANCY
for Sustainable Development

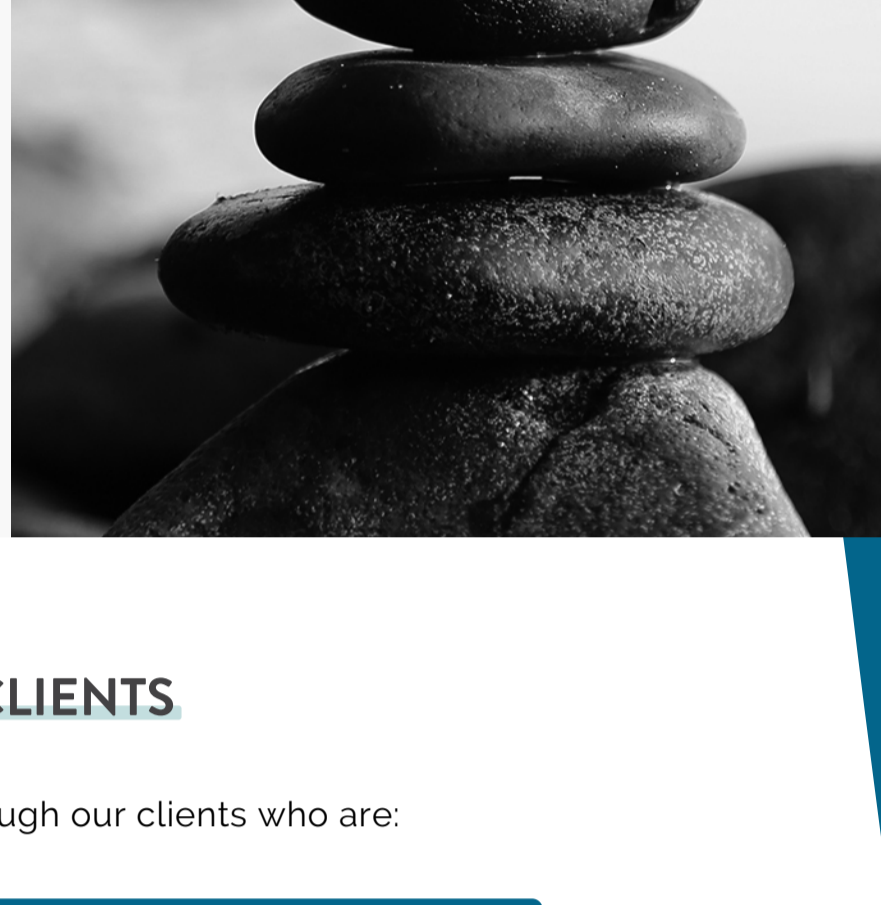

LEGAL SERVICES
that integrate our triple-bottom line approach (impact business structuring, sustainable finance, outcome contracts, among others).

TRAININGS AND EDUCATION

- SUPPLY CHAIN AND DUE DILIGENCE
- SUSTAINABILITY & COMPLIANCE
- LEGAL INNOVATION

OUR CLIENTS

We generate impact through our clients who are:

COMPANIES

FOUNDATIONS AND CIVIL ASSOCIATIONS

UNIVERSITIES AND ACADEMIC INSTITUTIONS

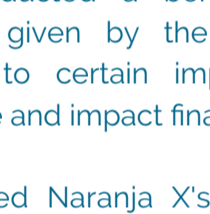

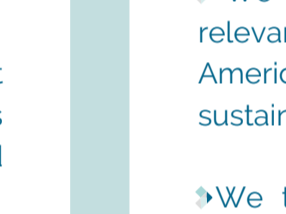

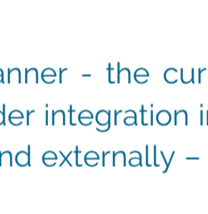

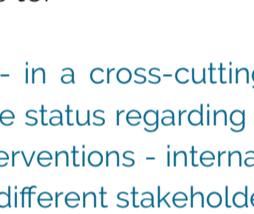

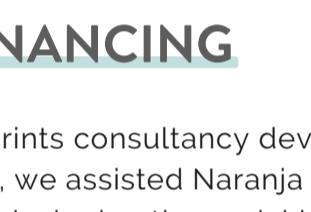

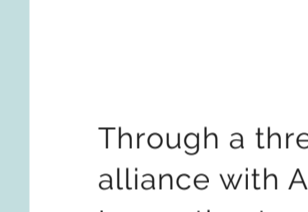

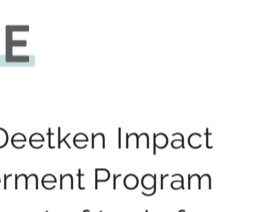

PURPOSE-DRIVEN COMPANIES

INVESTMENT FUNDS

GOVERNMENTS

INTERNATIONAL ORGANISATIONS FOR COOPERATION

Some of our clients:

INCLUSIVE AND DIVERSE GOVERNANCE

In collaboration with Pro Mujer and Deetken Impact – as part of the Ilu Women's Empowerment Program financed by USAID - we developed a set of tools for Ilu Toolbox: "Integrated and Inclusive Governance & Women Leadership". To enable companies to:

- Assess - in a cross-cutting manner - the current governance status regarding gender integration in its various interventions - internally and externally - and among its different stakeholders.
- Design an action plan to implement a gender perspective integrated governance.

Within the project, we also conducted trainings for more than 15 Latin American companies from Ecuador, Guatemala, Haiti, Mexico and Peru (among other countries).

The tools developed can be accessed [here](#)

IMPACT FINANCING

Through a three sprints consultancy developed in alliance with AcruX, we assisted Naranja X's Social Innovation team in designing the social innovation strategy impact financing pillar. To this end:

- We conducted a benchmark to analyse the relevance given by the fintech sector in Latin America to certain impact matters, identifying sustainable and impact finance existing opportunities.
- We trained Naranja X's business areas leaders, products, and finance on sustainable and impact investing, on how to integrate ESG (environmental, social and governance) factors into investment products development, and on the different tools available for channeling those investments.

As a result, Naranja X identified its more relevant impact matters for the impact financing pillar aligned with the SDGs on which the company focuses on, together with a series of opportunities which were complemented with a roadmap.

OUR IMPACT BUSINESS MODEL

Our impact business model is focused on our clients and the improvements they experience from the services they receive, which are focused on facilitating and/or scaling their impact (economic, social and/or environmental).

Through the services we provide and the projects we are involved in, we aim to contribute to the 3 following Sustainable Development Goals targets: 14, 4.7, 15.5, 8.3, 9.3, 10.2, 12.6, 12.7, 12.8, 16, 3, 16.6, 16.7, 17.3, 17.5.

Our impact also results from the Pro Bono work we do, which we strategically focus on developing the impact ecosystem.

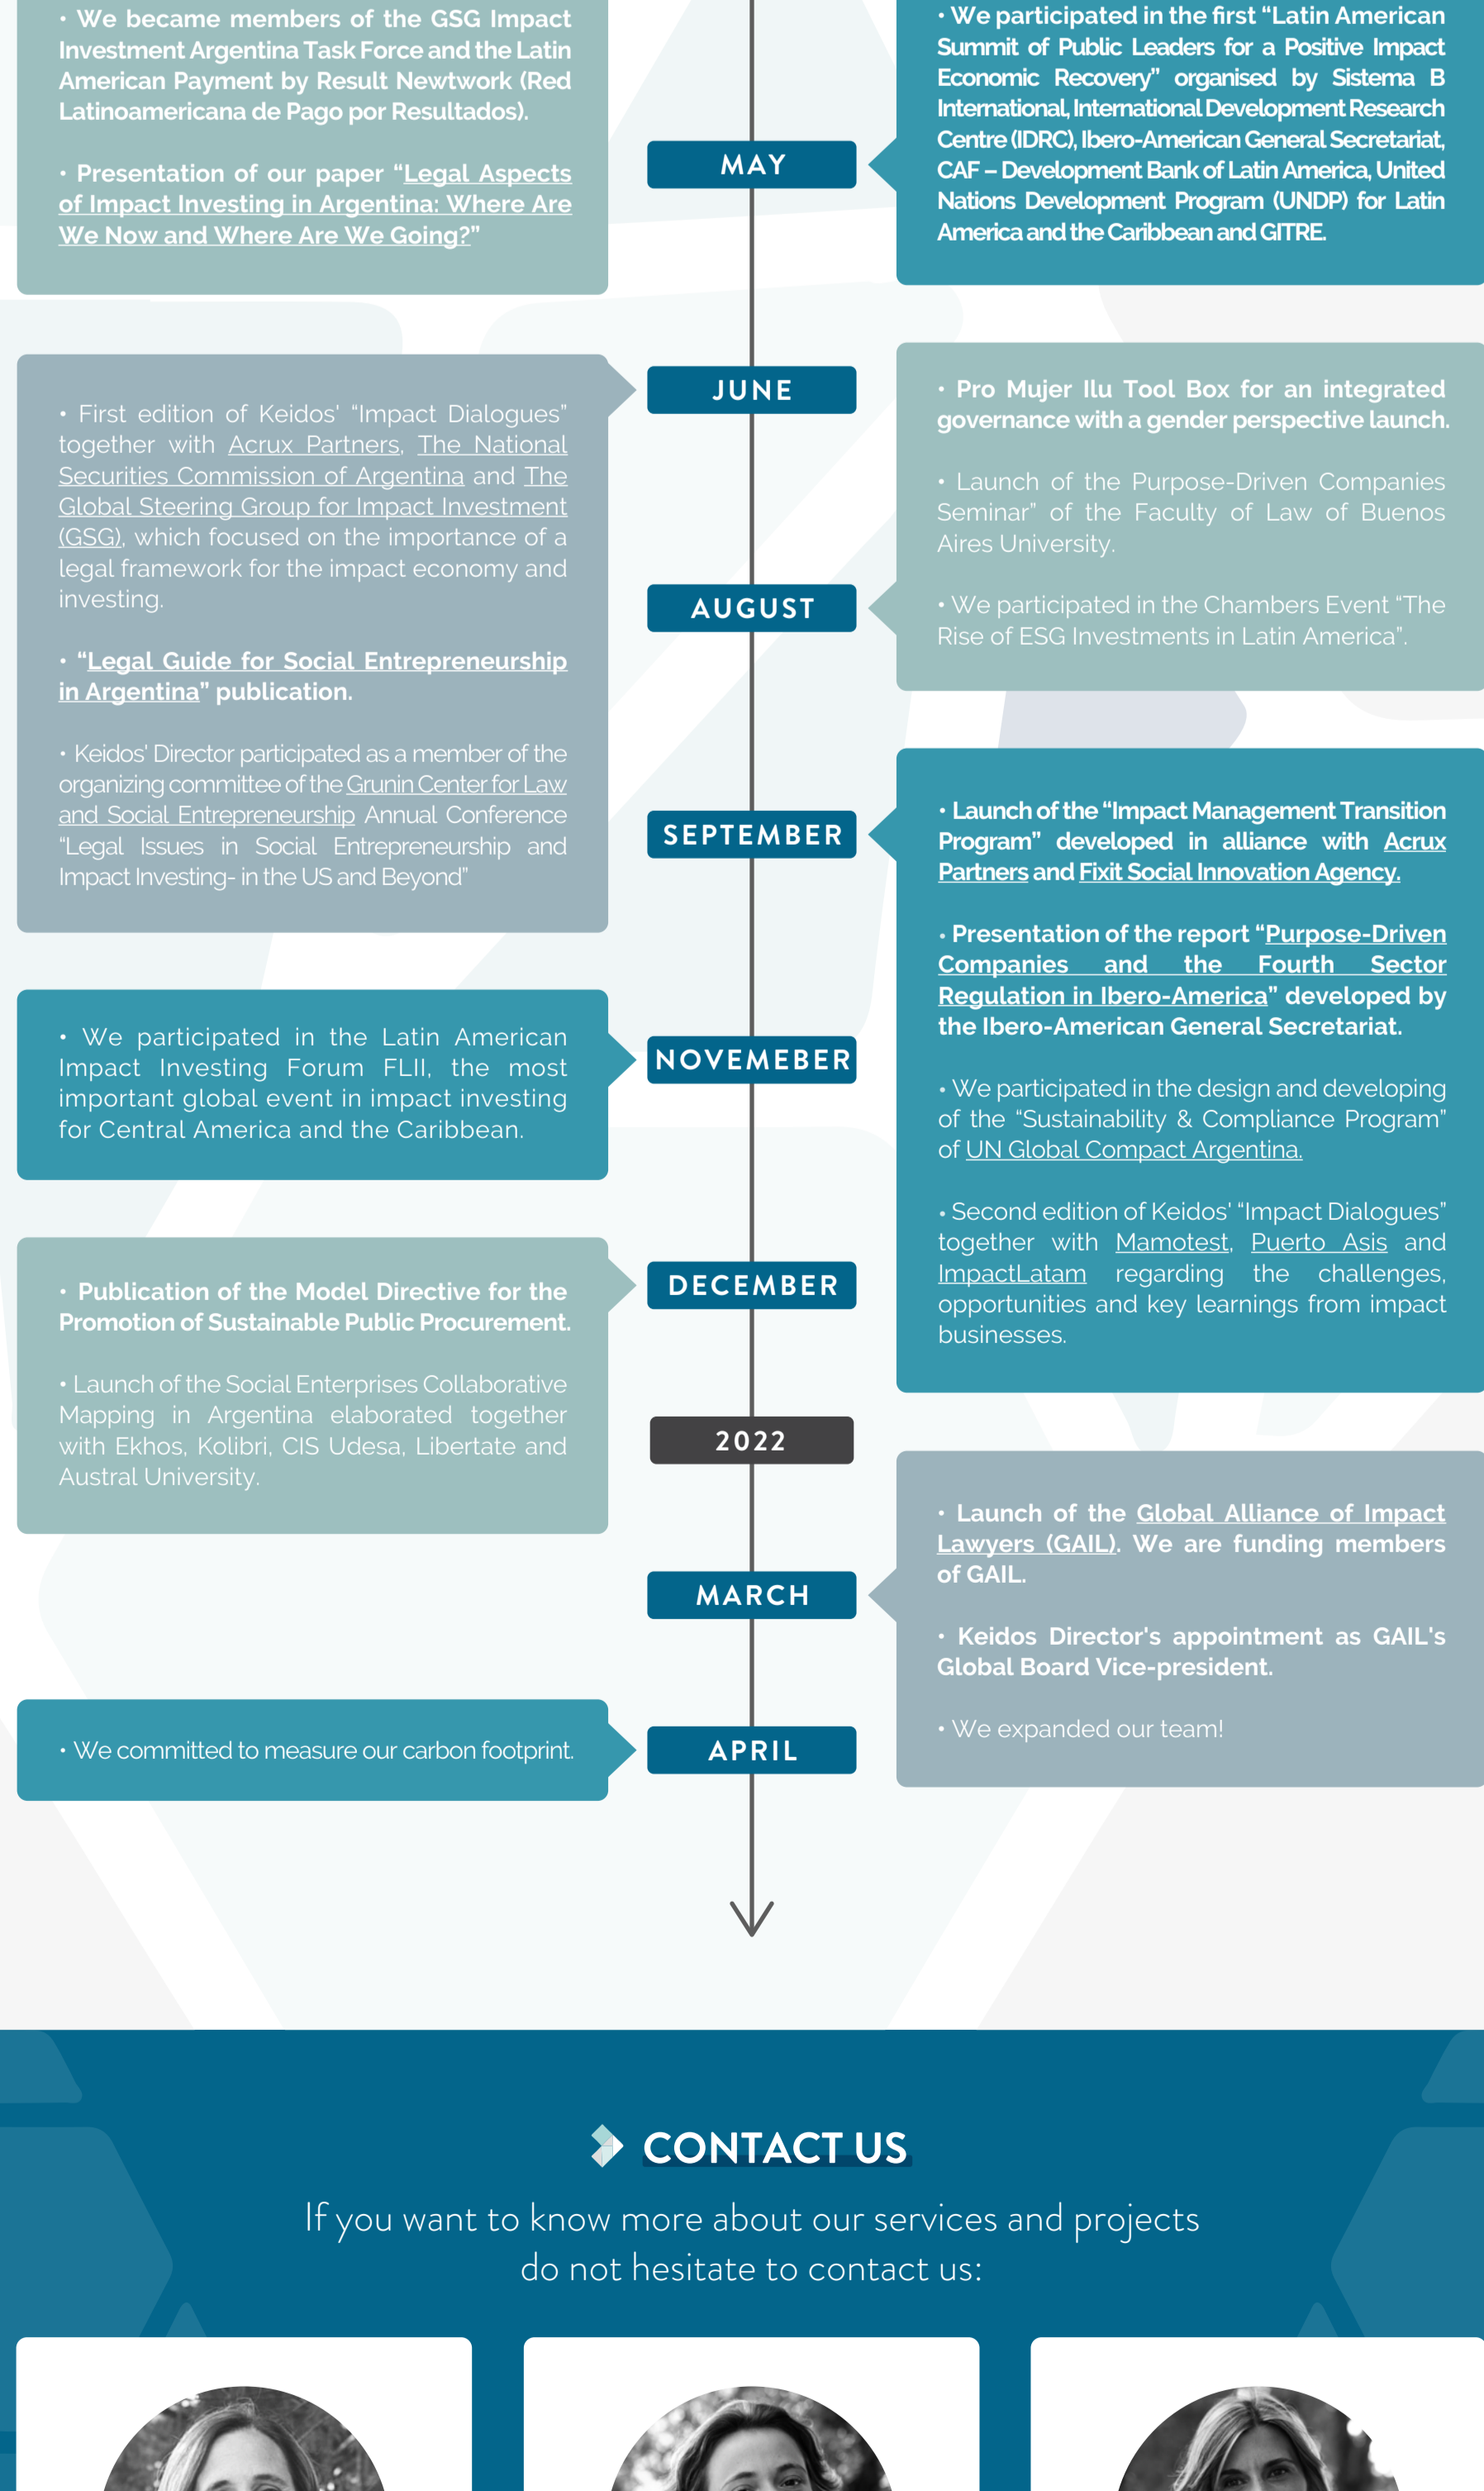

The development of our impact business model is an ongoing process, and we still have a long way to go. For that purpose, we are employing the B Impact Assessment, to obtain the B Corp Certification by 2022.

MORE THAN 270 HOURS OF PRO BONO WORK

to develop the **impact ecosystem** to:

- BUILD CAPACITY**
to promote the progress of the impact ecosystem and its stakeholders, on these topics: Impact investing, social enterprises, purpose driven companies, ESG, Business and Human Rights. You can access these contents [here](#).
- DEVELOP INTERNATIONAL, REGIONAL AND LOCAL NETWORKS**
We are Keidos, we are networks.
 - Global Alliance of Impact Lawyers (GAIL)
 - Red contrato de pago por resultados
 - Grupo de Inversión de Impacto
 - Comunidad Legal Argentina de Impacto (CLAI)
- PROMOTE AND PARTICIPATE IN SPACES FOR DISCUSSION**
webinars, forums and workshops on the following topics:
 - Impact lawyers
 - Impact investments
 - Regulatory frameworks, best practices, and standards for the impact economy
- TRAIN MORE THAN 130 PEOPLE**
who acquired knowledge and new skills for the impact economy building.

WHAT WAS OUR FIRST YEAR OF WORK AT KEIDOS LIKE?
